

MUHAMMAD RUSAB CHAUDHARY

ELECTRICAL ENGINEERING STUDENT | UET LAHORE

PORTFOLIO CV
Contact details can be added

PROFILE

Electrical Engineering student interested in automation, embedded systems, IoT, electronics and software development. Focused on combining hardware and software to build practical solutions for real-world engineering problems.

EDUCATION

B.Sc. Electrical Engineering

2025 - 2029

University of Engineering and Technology (UET) Lahore

- Focus areas: Automation, Embedded Systems, IoT, Electronics and Software Development.

EXPERIENCE

Electrical Engineering Intern

Aug - Sep 2026 | 6 weeks

Millat Tractors Limited

- Worked with industrial electrical systems, plant systems and energy-efficiency related engineering work.
- Contributed to GL3 burner automation involving PLC/HMI control, purge and ignition sequencing, flame detection, VFD fans and temperature monitoring.

Python Intern

Jul - Aug 2026 | 8 weeks

Arch Technologies

- Built practical Python development projects and strengthened programming and software development skills.

Python Intern

Mar - Apr 2026 | 1 month

CodeAlpha

- Developed Python projects including GUI applications and focused software tools.

SELECTED PROJECTS

Attendance Management System

HTML / CSS / JS / Supabase

Role-based attendance, timetables, reports, exports and Supabase backend.

UET Bus Route Website

HTML / CSS / JS / Maps

Nearest-stop and route explorer covering approximately 359 stops and 34 routes.

Python Projects - CodeAlpha

Python / Tkinter

Portfolio tracker, chatbot GUI, Hangman and To-Do List GUI.

GL3 Burner Automation

PLC / HMI / Automation

Industrial sequence control, flame safety, VFD fans and monitoring.

TECHNICAL SKILLS

Programming Python, C, C++, JavaScript	Web HTML, CSS, JavaScript, Supabase
Embedded / Automation Embedded Systems, IoT, PLC/HMI, Electronics	Tools Git, GitHub, MATLAB basics
